Graphic design portfolio inspiration pdf download full version full

Having started his career in print design, he learned how to design for the web and to code websites early on through professional experience and freelance work. At the moment Veerle collaborates with Duoh in Belgium.OddoneThe Oddone portfolio was created by Roger Oddone, a designer based in San Francisco who specializes in brand identities. Because Odine knows his way around creating and maintaining an online image, there's no wonder why his site stands out from the rest of the graphic design portfolios listed in this article. His work is stunning, and his experience with brands like Google, Uber, Wired, and Mashable explains it all. Fake Honey Pictures/Fake Honey Pictures is a former film and photography production team that works with fine art and commercial projects. There is great variety in his beautifully presented portfolio and has clearly enjoyed working with some brilliant clients.Heather ShawFor almost twenty years, he has been helping clients of all shapes and sizes create beautiful and usable things. She made use of bold colors to design the whole website, as well as muted colors to complement the rest of the scheme.The homepage is the main component that sets this portfolio apart from the others.Alex CovenAlex Coven, 26-year-old graphic designer, and web developer creates innovative solutions that inspire, and foster memorable relationships between brands and their clients. This is why he chose to use an interactive timeline that makes up his entire online portfolio.Timelines are often used in graphic design portfolios to showcase pieces of work because they are easy to navigate and convey a sense of progress and achievement.Denise ChandlerDenise Chandler owns a portfolio that should teach you a thing or two about colors. The great amount of negative space helps put these logos in the best light possible.Veerle PietersVeerle Pieters initially started her career in the printing industry but slowly became attracted to website design, which became her passion and main occupation.Veerle is now showcasing pieces of work in multimedia development, most of her collaborations being company-oriented. His insight of level design allows him to create fun GAMEPLAY features and well-balanced levels, which can accord with the game design perfectly and maximize the user experience. Chip has designed more book covers than we have time to list, but some memorable authors he's designed for include Cormac McCarthy, Michael Crichton, Dean Koontz, James Ellroy, and Haruki Murakami.Kate MorossKate Moross is an art director, illustrator, and graphic designer. She is focused on bringing brands to life in print & online and loves telling stories through colorful illustration and immersive interactive experiences. Lettering, illustration, design work, eating pizza, cheering on bike racers, and taste-testing chocolate. Born in Germany and raised in Austria, he now happily lives and works in New York City.Tobias' journey is a little different than most. His work experience is impressive and some of his most important clients include YouTube and The Huffington Post.This portfolio website only contains a few logo designs, but they are enough to impress visitors. In his spare time, Grant can be found goofing around with his son, wife, and terror (sorry, terrier), Cooper.Alessandro ScarpelliniAlessandro Scarpellini is a designer and art director with a reductive and modernist visual language, specialized in strategy, branding, and visual communication. The team behind this project strives to offer high-quality designs to a wide range of clients, but especially for those working in the beauty, fashion, tech, and lifestyle industries.The portfolio adheres to the company's principles, presenting the past work in a magazine-like manner. His clients are companies, publishing houses, businesses, associations, or private individuals who want to take care of their image and present their business in a clear and dynamic way. He has an eye for structure, color, and impressive typography and you can tell that from his design portfolio.Belen's site stresses his preference for structure, maintaining a clean design, and neatly categorized past projects.Jenett LiawTo get a sense of Jenett Liaw's style of work, you simply need to access her digital portfolio. It's a unique approach that encourages visitors to explore the entire website and spend more time on it.The portfolio features quite a lot of animations and transitions, and it can load slowly at times but the wait is certainly worth it.RoAndCoRoAndCo was founded by Roanne Adams who is based in New York City. He is also an illustrator and deals with interface design. Prior to moving to the States, she worked with various agencies as well as freelance and graduated from FH Joanneum in Graz, Austria, where she studied Communication and Information Design. She specializes in both print and interactive design with a particular interest in branding, editorial design, typography, and packaging.Tobias Van SchneiderTobias van Schneider is a German multi-disciplinary maker of useful, curious, and beautiful things (he just doesn't like the word entrepreneur). Robby also used gamification a strategy for his website, including an interactive resumé that people can enjoy while finding out more about him.Timothy GoodmanTimothy Goodman came up with a very simple idea for his design portfolio. She's brilliant at what she does and there's no need to add fancy details in the portfolio because her work sparks it up in an instant. He was born in Spain and became passionate about visual communications early in life. Pairing the two styles couldn't lead to anything other than a stunning result that sticks with people long after they've visited the site.Julie BonnemoyJulie is a freelance designer meaning that her portfolio makes a difference day after day in terms of how many clients she gets and - ultimately, how much money she makes at the end of the month.She opted for an unusual design style that is strikingly impressive compared to other design portfolio approaches. Mike is also a regular speaker at design/tech conferences.Stacey UyShe is a designer and illustrator based in San Diego, specializing in print and digital design, branding strategy, and illustration. She graduated from John Brown University with a degree in Graphic Design. It was founded by Stacey Mendez, who has been bringing product ideas to market for the last decade with world-class companies and brands such as Logitech, Terrallon, UGG, Helly Hansen, Vodafone, Vtech as well as ambitious start-ups.These projects have included humanizing physical products, digital experiences, and packaging, bringing a high return on investment, and strategically advising clients. She used a water ripple effect on mouse hover for an interesting user experience.Ben MingoBen Mingo is a Californian designer that uses his online portfolio to showcase his work in a nonconformist manner, which involves replacing the classic mouse wheel scrolling action with something that requires the visitors' interactivity.People need to use their mouses to drag across the website in order to reach other parts of it. Kate's work spans the artistic direction, moving imagery, typography, and illustration. He has over seven years of experience solving complex branding problems and incorporates his second passion of illustration into projects whenever it makes sense. Since then, she had to promote her work herself, putting together this portfolio. He has a worldwide client roster and his work is often featured in design-related publications. After realizing he, quite frankly, sucked at it, Tobias began teaching himself design at the age of 16. Check out how she has blended her work in the simplest website template possible.Belen RoldanBelen Roldan Franco is a designer based in Berlin. The one aspect that's worth mentioning and which is often appreciated by visitors would be the vertical menu that contains all the project titles.The rest of the layout is airy and simple to navigate through, and visitors can enjoy an animated GIF that showcases selections of work.YaslyYasly is Danny Jones' design portfolio, a specialist in 3D interaction and visual design. Steve's philosophy of continuity, resilience, and simplicity result in elegant and sophisticated works aimed to stand the test of time. Visitors can enjoy their work by leafing through split-screen images, watching an animated presentation or a full-screen video.Rob DraperRob Draper's site is not much different from other minimalist graphic design portfolios. And he believes that fun layout plays a really significant role in world creation. She loves working on playful, visually tasteful, and purposeful design projects.Kelly RomanaldiKelly Romanaldi, freelance illustrator and graphic designer. He had the opportunity to learn and collaborate with the best, at top design firms like Happy Cog, Mule Design Studio, and Tangible UX, where usability and accessibility are the top priority.Stefanie BrucklerStefanie holds a Senior Designer position at NR2154 in New York City. In 2012, Kate founded Studio Moross, a London-based multidisciplinary design company as an expansion upon their own work and a way to collaborate with other creatives.Brook PerrymanVery talented senior graphic designer with proven experience in developing catalogs, advertisements, branding, packaging, and website content for B2B and B2C.Rachel ChengA curious product designer who lives off of meaningful user-centric design and is constantly creating to grow further.Steve Wolf DesignsAs principal at Steve Wolf Designs, Steve uses his design experience to support brands of all sizes in telling their stories through timeless visuals and strategic thinking. He is primarily focused on branding, logos, and illustration but loves taking on any good design challenge. He works for a wide range of clients around the world, helping build timeless and meaningful design solutions with real purpose, value, and simplicity. She received nominations for several awards and was mentioned in famous magazines like Forbes, so it's pretty clear that her work is high-quality.Robby LeonardiRobby Leonardi has one of those very transparent graphic design portfolios, where clients can see absolutely everything about his past work. Once you visit this site, you'll be instantly mesmerized by the simple approach Daniel adopted and how effective it is in showcasing his work.The portfolio features motion graphics and a plain color scheme, along with scrolling effects and modern typefaces.Merjin HossThe portfolios presented up until now fall into the "flashy" category, meaning that they tend to stir the interest of the user very quickly through one-of-a-kind elements and emphasizing the quality of the showcased work.Merjin Hoss' portfolio adopted a traditional design approach to showcase his far-from-traditional work —psychedelic art. Her experience of aesthetics, human behaviors, and business gives her a holistic understanding of how to create and bring easy-to-use product ideas to the market for commercial growth.Mingfei YangMingfei Yang always keens on photography, architecture, and games when he was a teenager. He produces illustrations, logos, coordinated images, branding, packaging, covers and editorial inserts, catalogs, web design, social content.Ismael BarryIsmael Barry is a product designer passionate about serving people by solving for their needs and understanding the gravity of those decisions as they impact our world.Adam SandovalAdam Sandoval, a graphic designer living in Phoenix Arizona. He enjoys the feeling to get himself immerse in the game world. He adopted a minimalist approach, only including a few visual details like the dark-colored band that greets visitors when they first access the portfolio, and a hand-written typeface to contrast with it.The layout used for this website is a modular grid system, thus presenting his prints in a very aesthetically pleasing manner.Daniel SpatzekSpatzek managed to create one of the most creative graphic design portfolios in the industry. Fast forward a few years and through a whole lot of ass-busting, Tobias is now a designer, founder, speaker, mentor, and maker.Grant BurkeGrant combines his creative flair with a strategic approach to create purposeful and unique brand identities. Their portfolio focuses on video projects, thus the website is filled with multimedia elements. The website follows a grid layout and interacting with the portfolio is very easy, as all elements can be viewed within the site, without leaving it.Densy NevozhaiDensy is a world traveler that decided to tell this story through photos. He started his career by dropping out of high school at 15 with grand plans of becoming a software engineer. Currently, Jamie teaches Skillshare and designs art prints and handcrafted fonts for her shop. Achieving the balance will be very difficult, but meanwhile, it's also pretty satisfying and rewarding.Chip KiddChip Kidd is a contemporary American graphic designer, author, and editor. Formerly she was a Designer at High Tide. Xavier is based in Barcelona and he decided to follow a freelancing career after being a senior art director at a renowned company in the industry.His portfolio was created by Burundanga Studio and it uses a lively color scheme, bold typography, and heavy animation. The portfolio has a bright theme, with lots of illustrations and a dynamic color palette.Robby didn't have to include any written story here because his expertise results from the work he's been showcasing on the site. The portfolio is visual-oriented and it stands out through color and contrast.Lotta NieminenLotta Nieminen is a graphic designer based in Helsinki. He loves getting in to collaborate with clients to find a strategic and creative solution for any and all of their design needs. Her graphic design portfolio emphasizes Lotta's experience in the field, including her past studies at the University of Art and Design and Rhode Island School of Design.In the present, Lotta founded her own studio based in New York. She earned degrees in art history and psychology from UCSD and has more than 6 years of experience in graphic and web design.Dominic FlaskDangerdom Studios is the work of Dominic Flask, a designer and illustrator who works hard to make the world a beautiful and more interesting place to live in...one small piece at a time.He works with brands to build emotional connections through digital products by crafting unique illustration identity systems.Jamie BartlettJamie Bartlett is a graphic designer and left-handed letterer working out of Denver, CO. Currently residing in Philly, Jennifer is saving up for a cute lil' Yorkie.MDZ DesignMDZ Design aims to help people with product ideas all bring them to market, profitably with quality. As a true artisan, when not in front of his computer, Steve can be found painting in his garage, seeking inspiration in antique shops, or traveling the globe.Josh MillerThe portfolio of Josh Miller, a Perth-based product, web & brand designer with over 10 years of experience working with small businesses & national brands. On page transition, Josh created a colorful wave-like graphic that keeps up the lively theme of his work.Mike KusMike is a UK-based designer, specializing in Branding, Graphic/Web Design, Illustration & Photography. Everything is there in all its glory, and she made sure that visitors will quickly get a grip on how she works.Peter KomierowskiPeter is specialized in brand identity creation. Her work reflects everything she loves in life: a good cup of coffee, nerdy design terms, tandem bikes, road trips, and so much more.Ilana Griffollana Griffio is a designer and illustrator in Upstate New York. He is also the curator of the branding and graphic design blog Visual Journal.Jennifer HeintzJennifer Heintz is a multidisciplinary designer & illustrator, as well as a founding partner at Self Aware. With a focus on branding and UI / Web, he strives to create usable and polished products through passionate and deliberate design.Rafael KfourirRafael Kfourir is a graphic designer based in Brazil. His portfolio looks effortless, in a good way.Everything is nicely organized, all the uploaded work is of the topmost quality, and the overall design suits the high profile of all the collaborators that Jones had through the years.The portfolio has a luxury feel to it, even though it's not packed with animations and loud colors.Amber XuAmber Xu is a very good motion graphic designer based in China and her website is definitely worth listing in the top graphic design portfolios for inspiration.Why? He is best recognized as a graphic designer for book covers.
